

charnwood 

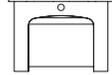

**COVE 2**

**STOVE DIMENSIONS**

With its gentle curved door and soft lines the Charnwood COVE 2 creates a powerful centre point for any room. It delivers a respectable 8kW of heat with a maximum output of 11kW. The base options give the stove five very different looks. The low and arch stand are perfect for fitting the appliance into a standard fireplace opening whilst the midi, store and centre stand are ideal for a large inglenook or a freestanding situation.

		A	B	C	D	E	WEIGHT
